The 3rd United Nations World Conference on Disaster Risk Reduction
Secretary-General’s Remarks at Tohoku University Symposium. “Lessons Learned from the Great East Japan Earthquake” United Nations Secretary-General ban Ki-moon. (15th March, 2015)

“I am especially grateful for Tohoku University’s collaboration with a number of United Nations agencies on a new Global Centre for Disaster Statistics. I count on this valuable Centre to help monitor progress on the new global disaster risk reduction framework. It can also keep track of how we are doing on the future sustainable development goals.”
